

Water Treatment Technician I/II

Denver Water is recruiting for a Water Treatment Technician I and Technician II to perform a variety of jobs necessary for the operation and maintenance of DW's Moffat, Marston and Recycle Plants.

Requirements for the Technician I level include graduation from high school, supplemented with vocational/college coursework in mechanical maintenance or water treatment or other related science field and one year's experience in water treatment plant operation and/or mechanical maintenance work. An equivalent combination of education or experience may be considered. Must obtain a Class 'D' Colorado Water Certificate within two testing cycles or one year of time of appointment, whichever is longer, and a Class 'C' Colorado Water Certificate within three years' of time of appointment.

Requirements for the Technician II level include graduation from high school, supplemented with two years' coursework in water treatment techniques and two years' experience in water treatment plant operation and/or mechanical maintenance work. An equivalent combination of education or experience may be considered. Must possess a Class 'A' Colorado Water Certificate on the date of appointment.

Both positions are required to work shifts, weekends and holidays as directed, and must be willing to work with and around hazardous chemicals. Will be required to respond to hazardous chemical releases and must comply fully with Denver Water's requirements for emergency response and respiratory protection. Will be required to perform safety sensitive functions.

The hiring range for the Technician I level is \$14.99-\$17.36 an hour DOQ. The hiring range for the Technician II level is \$20.23-\$23.39 an hour DOQ. Denver Water offers an excellent benefits package, which includes CIGNA HealthCare, vision and dental coverage, retirement plan fully paid by Denver Water, and a 401K.

All employment offers are contingent on the successful completion of a post-offer physical, which includes drug and alcohol testing. A background check will be conducted to verify information submitted on application

Candidates MUST submit a completed Denver Water application in order to be considered. Applications will be accepted until a sufficient number are received. Applications can be completed on-line or downloaded by visiting the 'Employment' section of Denver Water's web site: www.denverwater.org, or apply in person at:
